

FOR SALE

State-of-the-Art cGMP-Qualified Solid Dosage Development and Manufacturing Facility

49 Mall Drive was purchased in 2015 by Ropack Pharma Solutions (RPS). RPS has made the strategic decision to market and sell its solid oral dosage development and manufacturing facility located at 49 Mall Drive, Commack, New York. This state-of-the-art 103,530 sq-ft. facility is located on Long Island, less than 50 miles from New York City and includes process development and commercial manufacturing suites, as well as full fit-out analytical laboratories.

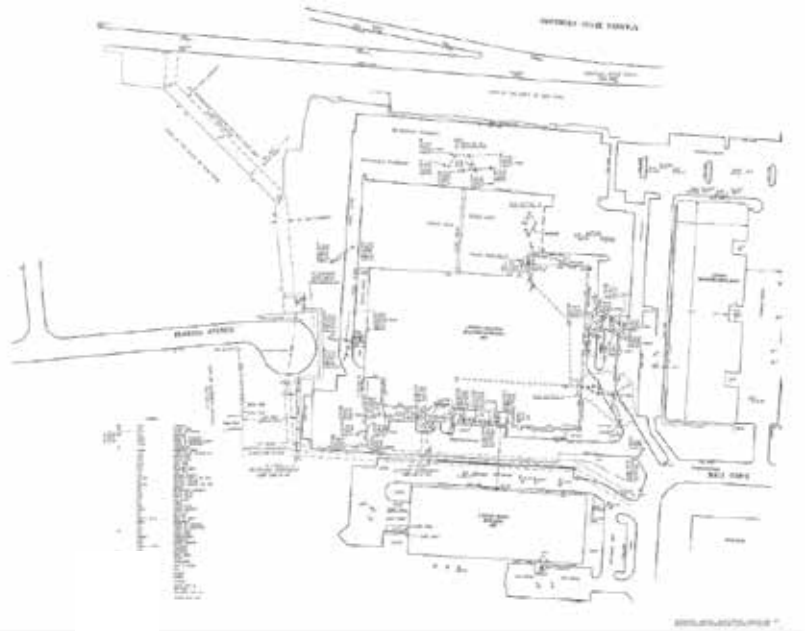

This facility has fully validated HVAC's, USP water system, compressed air, laboratories, warehouses and manufacturing clean rooms from a cGMP standpoint. Complete equipment train and laboratory devices allow the capacity to perform a wide range of cGMP activities from formulation development to mid-sized commercial productions.
